Add	Delete	Change	Constituents, characteristics, or waste codes that have changed
Other Changes			

5. GENERATOR CERTIFICATION
I hereby certify that all information (including attachments) is accurate and complete. I understand any changes made to the profile will be incorporated into the original profile and that the terms and conditions associated with the original approval remain in effect. I authorize EEI to obtain a representative sample from all shipments to perform analytical verification. I also authorize EEI to act as generator agent to recertify the profile if the analysis confirms there are no changes to the profile and the last shipment occurred less than one year prior to current shipment. I agree to notify EEI immediately if any changes to the composition, characteristics occur, or if the process generating this waste changes.
Authorized Signature _____ Printed Name & Title _____ Date _____

This signed certification must be returned to EEI and any profile changes must be approved by EEI prior to future shipments. EEI reserves the right to request additional information, analysis, or if applicable a new profile. Changes to the profile may result in price change and/or treatment and disposal method.
